Matt Werner graduated in entomology and soil ecology, and eventually came to Santa Cruz with a Ph.D. to do research in organic farming. While fixing up an old house the idea of working with wood took hold. A friend suggested he read Jim Krenov's books which were such an inspiration that he spent a year studying Fine Woodworking with Krenov in Fort Bragg. This has been his work and full-time occupation ever since. Matt specializes in creating hand crafted furniture with marquetry. You can check out Matt's work at <http://matthewwernerfurniture.com>.
