Jim Sweeney is a professional woodworker. He has a very large shop with all the equipment you would expect a well run shop to have. In addition to working in the shop himself Jim rents out space to other woodworkers both amateur and professional. Jim also has a dual-belt wide belt sander that for a fee he will set-up and sand large, wide table tops, etc. for other woodworkers. This is a good chance to see a very interesting shop.

JFC will be the first of two tours in November.

These cases will also be given out free to any local Fire or Police family member that is lost in the line of duty. Plans for these cases are on our club web site. **Gordon Fry**, 925-685-1676 is the Chairperson for this project. Call him if you know of someone that would like a Flag Case or would like some help building them.

Flag Cases were given to several local police and fire fighting families in the last couple of years. It is our honor to help in memories of these men who lost their lives in their community's service.
